

DEALER ADVANTAGE PROGRAM

The Dealer Advantage Program was developed for dealers looking for the complete water testing service program. This package will provide you with test kits, TDS meter, calibration solution as well as a complete set of sales tools developed to help you increase your water treatment sales. You will receive in-depth contaminant information and treatment solutions, detailed test package information, “how to” sales tools that will help you provide your clients with the most accurate diagnosis of their water issues. Through this program, you will gain additional benefits not normally extended to our dealers which include quarterly discounts on test packages and onsite consumables; reorder reminders; extra replacement materials and customizable reports or brochures at no extra cost.
